

KASSAI et al.  
(hereafter to be MIYAZAKI)  
Appl. No. 10/635,685  
June 30, 2006

**REMARKS/ARGUMENTS**

Attention is also directed to the attached declaration of Satoshi Sugiura to the effect that he is no longer an inventor after "non-selective" recitations are removed from the claims.

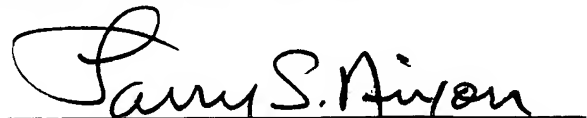

Since Ms. Miyazaki is also the sole inventor of the inventions now being claimed in this present divisional application, it follows that her own prior work as described in US Patent 6,320,377 is not that of "another" -- and thus the '377 patent is not "prior art" under 35 U.S.C. §102(e).

It will be noted that the now pending claims do not mention either non-space-selective or space-selective features since neither is considered to be part of the invention now claimed (which is now generic in this respect).

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
